

Stephen Cotter

Account Executive, technical SaaS · 10 years selling

Manchester, UK (GMT) · stephencotter1990@gmail.com · [linkedin.com/in/stephencotter](https://www.linkedin.com/in/stephencotter)

Ten years selling B2B software: from a FTSE 250 cyber security consultancy, to founding AE at usecure (employee #1, zero MRR to a team of 25), to the **highest-selling rep on my team three years running** at Synthesia, which I joined at Series A and left at Series E and a \$4 billion valuation. I've sold across SMB, mid-market and enterprise. I'm not an engineer, but I build: using AI coding tools I've shipped my own Chrome extensions, sales automations across HubSpot, Salesforce and Zapier, and internal dashboards, and I run Linux as my daily driver. I sell by showing people the product doing their job, not by slideware.

137%

YEAR ONE

\$1.10M against \$800K

125%

YEAR TWO

\$1.50M against \$1.2M

120%

YEAR THREE

\$1.47M against \$1.23M

#1

REP ON TEAM

\$4.6M closed in total

FOCUS

- **Enterprise sales cycles:** security review, procurement, legal, prospect to close
- **Multi-threading:** L&D, marketing, IT and executive stakeholders
- **Builds things:** Chrome extensions, automations, APIs and webhooks, built with AI coding tools
- **Demo-led selling:** 7/7 on Synthesia's GTM demo certification
- **Revenue operations:** funnel systems, reporting and routing
- **GTM stack:** HubSpot, Salesforce, LeanData, Zapier, Slack

EXPERIENCE

Synthesia

Remote, UK · 2021–2026

AI video platform. Joined at Series A; now Series E at a \$4 billion valuation.

Account Executive

2023–2026

- **Highest-selling rep on the team three years running:** 137% (\$1.10M against \$800K), 125% (\$1.50M against \$1.2M) and 120% (\$1.47M against \$1.23M). **\$4.6M closed in total.**
- **Sold the enterprise product across emerging, mid-market and enterprise accounts:** one seat, no segment cap. Full enterprise cycles throughout: security and IT review, procurement and legal, multi-threaded across L&D, marketing, IT and executive stakeholders, prospecting through close.
- **Scored 7/7 on Synthesia's GTM demo certification:** I ran my own technical demos end to end, tailored to each account's stated pains rather than a canned script.
- **Built my own pipeline tooling** rather than waiting on ops: Zapier automations integrating HubSpot, Salesforce, LeanData and Slack for lead enrichment and routing.
- **Sold one product through its expansion** from single-use-case tool to multi-product platform (video, AI assistant, translation/localisation), so expansion and multi-product adoption are the motions I know best.

Partnerships, Marketing

2021–2023

- **Built the partnerships motion** from nothing, landing **Oracle Analytics and SAP.**
- **Closed a ~\$200K licensing deal from a partnerships seat:** an API opportunity that arrived as a partnership conversation, at a point when the API was itself a candidate for deprecation. Still the largest deal closed in the emerging and mid-market segment.
- **Recruited into the sales team** by a VP on the strength of that deal.

bant.io

Manchester, UK · 2019–2021

B2B lead-generation SaaS. Joined as Account Executive; promoted to Head of Growth.

- **Hired as an Account Executive and promoted to Head of Growth** on the strength of the marketing skills I'd built at usecure.
- Owned the commercial funnel end to end and **quadrupled a stagnated MRR** over two years.
- Ran **revenue operations** across that funnel: the systems, reporting and process behind it.
- Company was acquired in 2021.

usecure

Manchester, UK · 2016–2019

Security-awareness SaaS. Founding Account Executive, employee #1 alongside the CEO.

- **The company's first salesperson. I grew usecure from zero MRR**, selling security-awareness software to **SMB, mid-market and enterprise** buyers worldwide.
- **The revenue I brought in was the basis of usecure's investment round.** The company went from two people to a team of **25** and a **VC-funded name in security awareness** by the time I left.
- Growing a company from nothing meant learning the whole revenue motion, not just the closing: **I taught myself marketing and demand generation** here, which is what took me into a growth role next.

NCC Group

Manchester, UK · 2014–2016

FTSE 250 cyber security consultancy. Account Executive.

- Sold penetration testing, incident response and ISO 27001 services to senior technical buyers.
- **New Business Sales Person of the Year 2015/16:** hired as the first graduate in two years, promoted within the first year, and the only person on the team to hit every KPI.

EDUCATION

The University of Salford

Manchester, UK · 2010–2014

BA (Hons), 2:1

OUTSIDE WORK

- **Chairman & trustee, registered charity:** leads the trustee board; runs its 6,000-attendee annual fireworks event including ticketing, marketing and HMRC Gift Aid compliance.
- **Club secretary, three football clubs:** fixtures, league affiliation, referees, discipline and finances for three amateur teams.
